

Genesis 1:27: "So God created man in his own image, in the image of God he created him; male and female he created them."

# Hula Friends! Characters

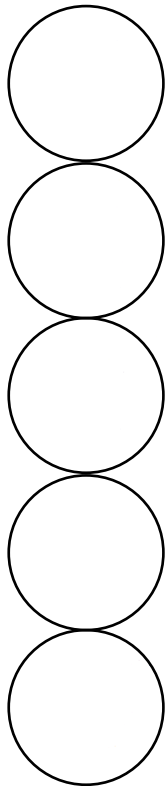

Drawing a lei can be a lot of fun. Just get the basic shape. Use lines like these to make it look round.

Even though your hands have a lot of lines, keep it simple. Focus on the form. I don't even add finger nails!

Draw the height about five heads tall!

Add a flower on the skirt!

Big toe goes inside.

Copy the shape of the foot. Practice by observing other people's feet and drawing them. Overlapping lines will help the perspective of the foot.

Here are various sketches of characters I have done. Practice... practice... have fun!

HULA COUNTRY  
Concept Art by Burton Sue

No drawing is the same. Just like each of us, we have differences that make us who we are. God loves you just the way you are.
